

A study to investigate how Long-Acting Reversible Contraception (LARC) is provided in the UK

Who?

- Are you aged 13 years or older?
- Are you using contraception, or do you have a need for contraception?
- Do you live in the UK?

What

We are looking for people who would be happy to talk to us who are likely to be, or who have been, encouraged to use LARC (eg IUDs, coils, implants, depo) in the UK.

We would like to talk to you about your experiences with this type of contraception and the services that provide them.

How?

We would like to invite you for an interview, one-to-one with a researcher.

We can arrange to talk face-to-face or on the telephone, whatever you are most comfortable with.

To take part or ask questions, please contact Taylor Burgess at taylor.burgess@bpas.org for more information.
