# Have you experienced gestational diabetes in the past?

## Would you like to contribute to research on gestational diabetes?

If you have previously experienced gestational diabetes (diabetes that first occurs during pregnancy), you are invited to join our research group looking at why people who had gestational diabetes are at more risk of having type 2 diabetes in the future and finding ways to mitigate that risk

### WHERE

Meetings will be held online  
and can take between 30-  
45 minutes

### REMUNERATION

You will be paid for your  
time
